TELECOMMUNICATIONS

IN THE MATTER OF THE PETITION OF UNITED)
TELEPHONE COMPANY OF NEW JERSEY INC.,)
SUPPLEMENT TO TARIFF #3 TO CLARIFY)
TARIFF LANGUAGE)

ORDER OF APPROVAL

DOCKET NO.TT02070493

(SERVICE LIST ATTACHED)

BY THE BOARD:

June 26, 2002, United Telephone Company of New Jersey, Inc. (Petitioner or UNJ) filed a petition with the Board of Public Utilities (Board) to clarify tariff language in tariff # 3. Petitioner requests the language change to clarify tariff language regarding Individual Line Obsolete Basic Rate Interface (BRI), Integrated Services Digital Network (ISDN) and Sprint Custom Access Solutions.

- ?? Individual line BRI service is a stand alone service arrangement which uses ISDN architecture to provide customers with the capacity of simultaneous access, transmission and switching of voice, data and image services via channelized transport.
- ?? ISDN is a local network that provides a customer with two B-channels each with a transmission speed of up to 64 kbps and one 16 kbps D-channel. The B-channels carry voice and/or data while the D-channel carries administrative signals for control.

Given that the network terminology should evolve with the technology, this petition makes verbiage changes that will correct the tariff to reflect current network technologies and allow customers to be able to understand the tariff text within the context of today's infrastructure deployment.

No rates will be changed and no services are affected by the filing. The proposal also has no adverse effect on the Petitioner's ability to provide safe, adequate, or proper service.

The Board therefore, FINDS that petitioner's request should be GRANTED and HEREBY APPROVE Petitioner's request.
